QUICK INSTALLATION GUIDE V1.0

LoRa Alliance™ Member

1. To open the enclosure, peel off the lower part, as shown in Figure 1.

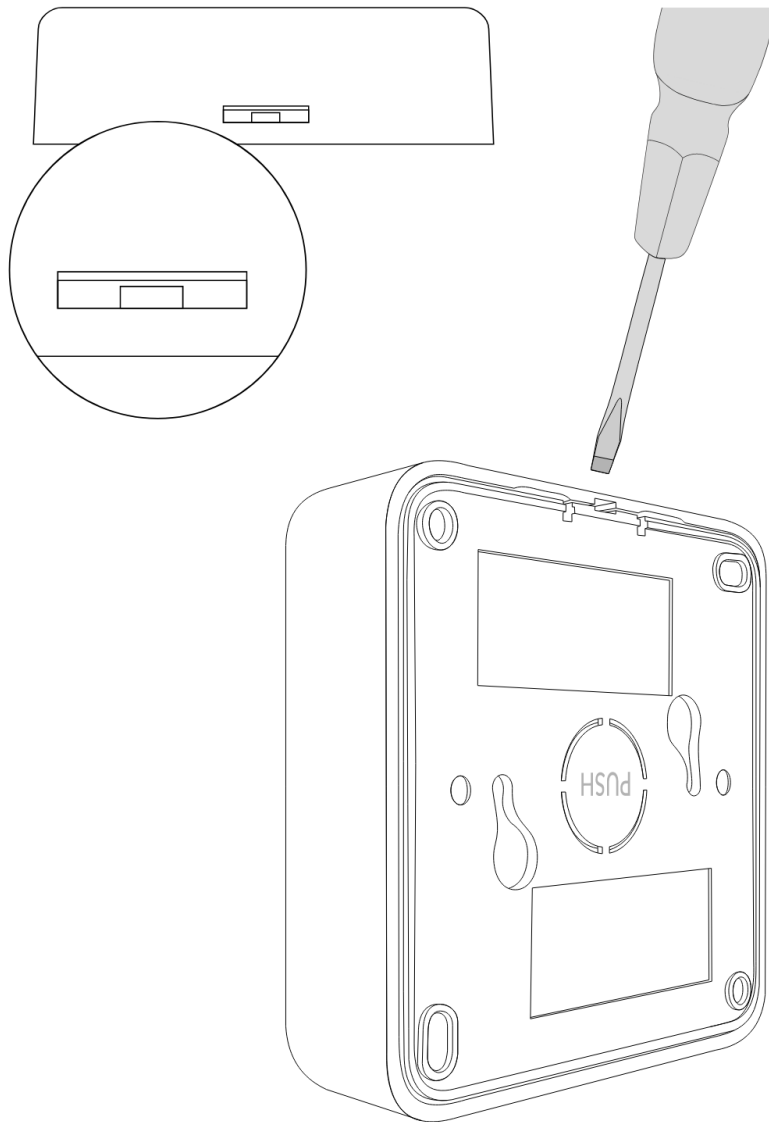

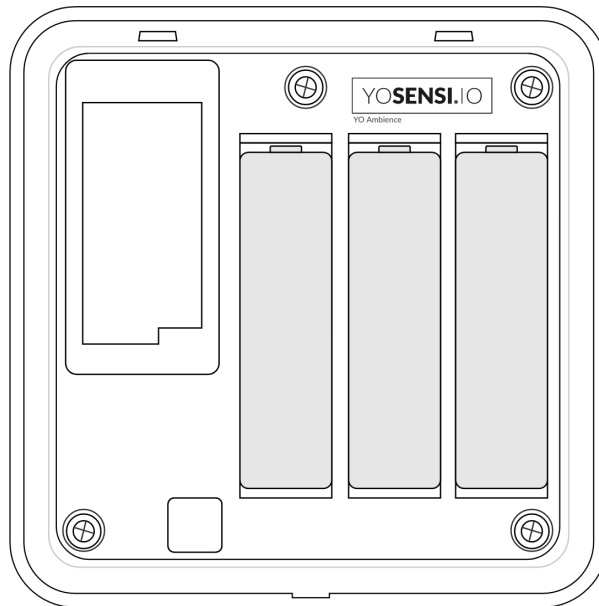

Figure 1 Opening the enclosure of the device.

2. Place three LR6 batteries in the device according to the polarity indicated on the battery holder.

3. There are two ways to mount the device into a wall.
 - A. Install the bottom part of the enclosure and mount four screws in each corner to the wall.

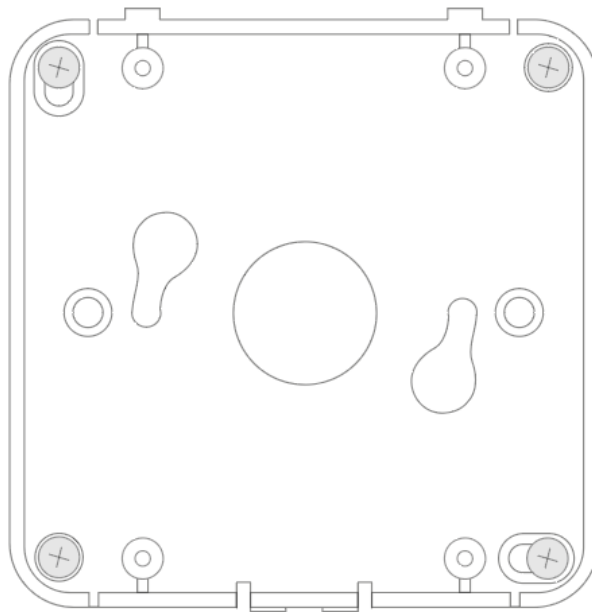

Figure 2 Mounting the device using four screws.

- B. Fit two mounting screws into the centre of the bottom case. Then, angle the bottom of the enclosure and turn it clockwise.

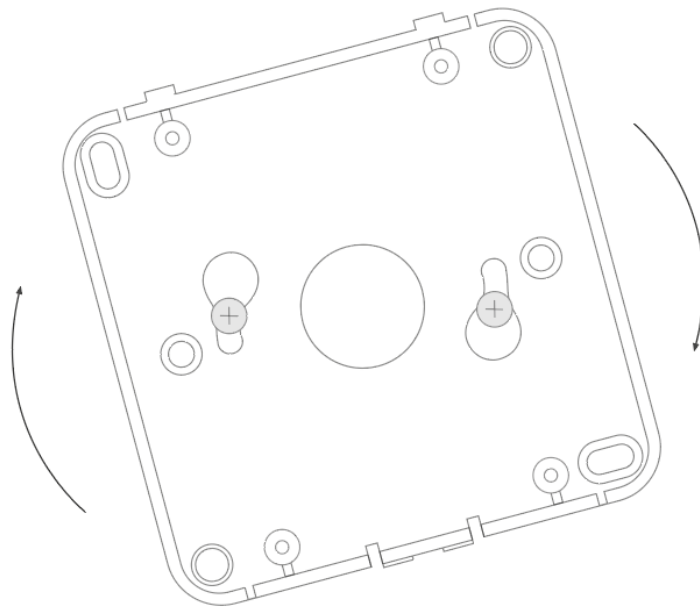

Figure 3 Mounting the device using two screws at an angle.

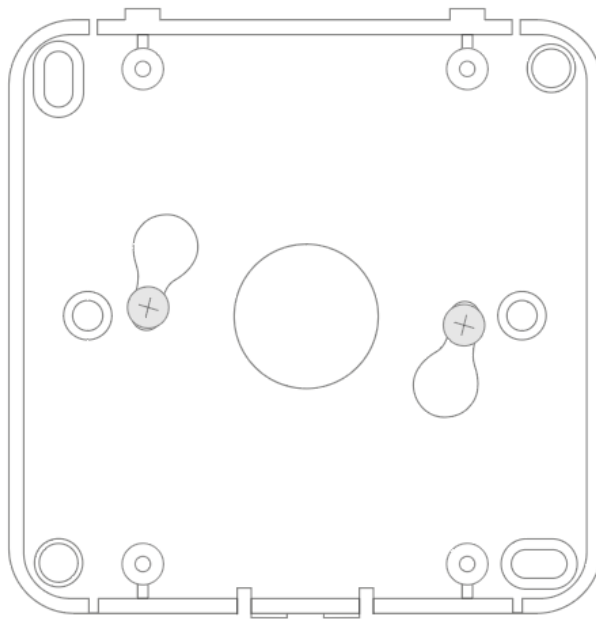

Figure 4 Mounting the device using two screws after a clockwise turn.

4. Place the upper part of the device enclosure on the bottom part mounted on a wall.
